

ASWAN ALI HUDA

D4 INTERNATIONAL TRADE LOGISTICS | BUSINESS MANAGEMENT

Email : aswanalihuda@gmail.com
Phone number : 081372073747

Linkedin : <https://www.linkedin.com/in/aswan-ali-huda-24429225b/>
Address : Pancur Baru Plot, Block H No. 63, RT 02 / RW 13,
Duriangkang Sub-district, Sei Beduk District, Batam.

PROFIL

D4 graduate in International Trade Logistics from Politeknik Negeri Batam with a GPA of 3.62 and internship experience in Supply Chain Management at PT WIK Far East Batam. Experienced in supporting shipping documentation, import-export activities, warehouse operations, inventory control, and operational coordination. BNSP-certified in Warehouse Supervision, with training in SAP ERP and warehouse operations from BKTi-PII. Responsible, adaptable, detail-oriented, and comfortable working in teams and operational environments. Interested in building a career in logistics and supply chain, particularly in shipping, warehouse, inventory, procurement, and purchasing.

EDUCATION

Batam State Polytechnic 2022 - 2026

Business Management - D4 International Trade Logistics | GPA: 3.62/4.00

RELEVANT EXPERIENCE

1. Supply Chain Management at PT WIK Far East Batam (2025–2026)

(Industrial Internship)

- **Shipping Administration & Import Documentation**

- Processed and verified an average of 25–30 PIB documents and 2–5 Delivery List documents per month using SAP S/4HANA and Microsoft Excel.
- Followed up with vendors via company email to obtain missing import information, including import permit dates, PIB numbers, invoices, BL/AWB, and forwarder details.
- Supported import document processing through CEISA 4.0 and updated shipment history in SAP after verifying the information against internal records.

- **Export Logistics & Container Booking**

- Assisted with Finished Goods export container bookings by checking Sales Orders, Customer POs, product details, destinations, and shipment quantities based on planner-provided data before submission.
- Entered and submitted booking data through customer-designated third-party logistics portals under the supervision of the Shipping Specialist.
- Communicated container booking confirmations to the relevant vendor to support the booking process and shipment preparation.

- **Shipping Schedule Coordination**

- Regularly updated daily shipping schedules based on the latest information received from the Shipping Specialist.
- Updated shipment schedule changes and communicated them to the warehouse team to support outbound shipment planning.

- **Warehouse Operation Support**

- Supported regular cycle counting across four storage areas covering supplier-supplied materials, molding production materials, slow-moving materials, and finished goods.
- Verified physical quantities and storage locations against SAP and WMS data, recorded discrepancies, relocated mislocated materials, and reported the findings to the supervisor for follow-up.
- Supported stock opname activities with the warehouse team across five areas by checking actual physical stock against SAP and WMS records.
- Prepared around 2–4 Finished Goods picking lists per day as backup support when shipment demand increased, based on master data and planner schedules, and assisted the warehouse team in locating pallets and loading goods into containers.

- **Affiliate Shipment Administration**

- Supported shipment administration for an affiliated entity by reviewing Shipping Request Forms and checking routes, shipping methods, material details, and other required information.
- Communicated with the affiliated entity regarding pricing and payment amounts before proceeding with third-party shipping service arrangements.
- Supported customs-related data checks, commercial invoice preparation, and system approval steps in accordance with established procedures.

- **Additional Operational Projects**

- Created a C-TPAT training video, from concept and script development to field simulation, filming, and editing, for use as training material.
- Contributed to data collection, quantity analysis, and documentation for an operational improvement proposal prepared by the warehouse supervisor for asset procurement.
- Prepared a Work Instruction for the loading of new Finished Goods models under the guidance and supervision of the Shipping Specialist, covering item identification, system scanning, operational documentation, and material movement records.

2. Project-Based Learning – Warehouse Efficiency Analysis at PT KTU Shipyard (2022)
(University Project)

- **Warehouse Data Analysis & Layout Optimization**
 - Conducted field surveys and interviews with warehouse staff to collect inventory, inbound/outbound volume, and space requirement data.
 - Calculated storage space requirements and throughput to identify priority items and optimize warehouse allocation.
 - Designed storage layout using the dedicated storage method based on Throughput/Space Ratio and rectilinear distance.
 - Improved warehouse efficiency by reducing item search time by 20% and increasing storage capacity by 15%.

3. Feasibility Study Project - Domestic Cargo Handling System Development at Hang Nadim International Airport (2025)
(University Project)

- **Cargo Handling & Operational Analysis**
 - Conducted feasibility study on domestic cargo handling operations, focusing on operational efficiency, infrastructure readiness, and digital transformation.
 - Collected data through direct observation, structured interviews, and documentation review to identify cargo handling constraints.
 - Analyzed key issues including manual handling dependency, limited automation, lack of real-time tracking, inefficient warehouse layout, and potential human error.
 - Proposed manual stacker implementation, SOP improvement, barcode tracking, ERP integration, and smart warehouse development as a phased improvement roadmap.

4. Wirausaha Merdeka – Polibatam – Batch III (2024)
(Internship/Entrepreneurship)

- **Procurement, Inventory & Sales Operations**
 - Procured raw materials for tempe snack production and reduced purchasing costs by 15% through supplier negotiation.
 - Created Purchase Orders and financial reports using Microsoft Excel.
 - Monitored raw material stock and coordinated delivery schedules to meet customer demand.
 - Handled online and offline customer transactions and supported product promotion through social media content management.

5. Field Work Practice – Ministry of PUPR (2021)
(Professional Internship – BPJN Kepri, Directorate General of Highways)

- **Material Monitoring & Project Documentation**
 - Monitored construction materials to ensure compliance with technical specifications and project budget plans.
 - Assisted in preparing project budget reports using Microsoft Excel, including material and labor cost analysis.
 - Managed project documentation and supported observation activities related to the Barelang Bridge maintenance and Trans Barelang road extension project.
